PROFILE

Senior Frontend Engineer with 10+ years building web applications in Angular, React and Vue. I focus on performance, accessibility and long-term architecture: I've raised a product's performance score from 30 to 72, cut PR review time by about 60% with code standards, and designed a notification architecture that saved roughly 50% of projected costs. I also run Gryfi, a small studio that designs and builds games, apps and websites.

EXPERIENCE

Senior Frontend Engineer
Dec 2024 – Present

Shiftbase · Netherlands

- Building workforce-management software that teams use to plan, schedule and manage their people.

Founder
Side studio

Gryfi · gryfi.app

- Designed and shipped Witch's Shop: Potions Purr, a cozy colour-sort puzzle game for iPhone with 100+ levels.
- Building Gremlin, a planner for ADHD brains, and a series of Witch's Shop puzzle games.

Tech Lead / Senior Frontend Developer
Jul 2023 – Dec 2024

ParkBee · Amsterdam

- Designed a push-based notification architecture, saving ~50% of projected costs; ran buy-vs-build estimates, kept a decision log and built a proof of concept with OneSignal.
- Built a serverless GraphQL gateway (AWS AppSync) so React and Angular apps could consume aggregated location data, with real-time availability over WebSockets.
- Set up Azure DevOps CI/CD with automated tests and linting; added monitoring with CloudWatch and the ELK Stack.

Senior Frontend Developer
Sep 2022 – Jun 2023

25Friday (for ParkBee) · Porto, Portugal

- Raised the main product's performance score from 30% to 72% through Angular optimisation and lazy loading.
- Brought SEO above 90% and improved Core Web Vitals with image optimisation, caching and a CDN.
- Introduced code standards and SonarQube, cutting PR review time by about 60%.

Senior Frontend Developer
Apr 2021 – Sep 2022

Natixis · Porto, Portugal

- Took part in migrating a key application from AngularJS to modern Angular.
- Built reusable components, including an Observable-driven modal and configurable dynamic tables, with unit and E2E tests.

Software Development Engineer
Oct 2018 – Apr 2021

PravaLer · São Paulo, Brazil

- Took a financial simulator for students from Design Thinking through to production.
- Integrated a new product type from simulation to full back-office integration in two days.
- Worked across Angular, Vue, PHP and Symfony.

Full Stack Developer · RLZE Grupo, São Paulo — Sep 2017 – Oct 2018

Intern / Full Stack Developer & IT Support · CEAD / IFMG — Apr 2016 – Sep 2017

Freelance Web Developer · DMCTEC Informática, remote — 2015 – 2020

SKILLS

TypeScript · JavaScript · Angular · RxJS · React · Vue 3 · HTML/CSS · GraphQL · AWS AppSync · WebSockets · CI/CD · Azure DevOps · GitHub Actions · Core Web Vitals · SEO · Accessibility · UX · Testing

EDUCATION

BSc Computer Science, IFSUDESTEMG, 2013 – 2018
Coursework completed; thesis pending

Computer Technician, CEFET-MG, 2010 – 2012
